*Celebrating* **150** years of  
**Shree Dhootapapeshwar Limited's** service to Ayurved

आयुःकामयमानेन धर्मार्थसुखसाधनम्। आयुर्वेदोपदेशेषु विधेयः परमादरः॥ अ.ह.सु. १/२

'Knowledge to achieve meaning *Dharma*, prosperity *Artha* and happiness *Sukha* one must follow the guidelines of Ayurved - the Science of Life.'

Perfecting the science of Ayurved for over 150 years **Shree Dhootapapeshwar Limited** has distilled wisdom, experience and expertise in the crucible of ancient knowledge to ceaselessly deliver - **Health** and **Happiness** through **Ayurved** and will continue to do so **forever**.

Our journey began with **Vd. Krushnashastri Puranik** who pioneered the art of scale up production without losing out on the essence of Ayurved. Successive generations built steadfastly on the reputation of quality and added sophistication as a true testimony to ancient Ayurved prescriptions. The legacy of excellence continues with the organization emerging as one of the finest in Ayurved classical manufacturers which boasts of Standardised, Safe, Authentic and Efficacious range over 350+ compounds. In-house Quality compendium '**Shree Dhootapapeshwar Standards**' (SDS) serves as a guarantee for patients and a warranty for Ayurved Physicians.

Today as **Shree Dhootapapeshwar Limited** celebrates 150 years, the Company is a benchmark of quality. **SDS** now with scholars, scientists, Ayurved Physicians and allied sciences reaffirm the founders vision of world with **Health, Happiness, Ayurved... forever**

Availability of medicines in India, Srilanka, Nepal etc.

Collaboration with eminent institutions such as NIA – Jaipur, KEM – Mumbai, IIT – Mumbai, Parul university for successful completion of experimental and clinical trials.

Shree Dhootapapeshwar

Standards

# Standardisation

Everything is being standardised today whether its an object, food or may it be an Ayurvedic medicine. Standardisation is extremely essential in order to deliver the user proper quality end product.

Chemical laboratory of **Shree Dhootapapeshwar Limited** is established way back in early 1950's to maintain the authenticity of Ayurved medicines, to balance in between the ingredients and their properties as well as to avail the Ayurved medicines all the time for use.

Some opinions say that, there is no need of standardisation of Ayurved medicines which is applicable to modern medicines.

**Shree Dhootapapeshwar Limited** has always given importance to standardisation. Standardisation not only helps in quality assurance of the ingredient in any medicines but also helps examine dose of the drug remain in the same form in all sets or not. It also helps understand whether the formulated medicines will remain in same state, are there any changes getting developed after specific time, if yes, then what are the changes and causes for that along with finding out the solutions depending upon the situation. It is mandatory to have the knowledge about the changes developed due to the Sanskar like Shodhan etc. of the ingredients, whether there is uniformity in the Sanskar or not? e. g. Samanya Shodhan of Guggul along with

the Vishesh Shodhan with disease specific Dravya enhanced the efficacy of Guggul as well as reduced the irritancy. Chemical laboratory is the only media through which we are able to understand increased beneficial properties after following the Shastravachan (text). Rasakalpa and Bhasma are very important in Ayurved. Suvarnadi Rasadhatu, Parad, Gandhak etc. are specially used in the production of Rasakalpa and Bhasma. Inappropriate Shodhan and Maran Sanskar of these ingredients may develop harm to the body. Standardisation is an inevitable process to know whether these Sanskar have been performed in appropriate manner or not. **Shree Dhootapapeshwar Limited** is keen for Standardisation of these Bhasma and Rasakalpa both on Ayurved as well as Modern parameters.

This Laboratory of **Shree Dhootapapeshwar Limited** is awarded with N.A.B.L. accreditation. This laboratory has facilities of modern tests such as Atomic Absorption Spectrophotometer, H.P.T.L.C., Gas Chromatography etc.

**Shree Dhootapapeshwar Limited** has developed its '**Shree Dhootapapeshwar Standards**' with the help of this laboratory. These standards are applicable at every level of manufacturing from the crude ingredient to the end product. This makes all the products of **Shree Dhootapapeshwar Limited** Authentic, Standardised, Safe and Efficacious. All the medicines of **Shree Dhootapapeshwar Limited** are made available in market only after standardization of every batch.

**Shree Dhootapapeshwar Limited** has provided every product with its monograph on our website [www.sdlindia.com](http://www.sdlindia.com) for everyone to get the information. This is nation's first Ayurved Company which has made the product monograph available to the consumer for transparency.

- Karshya

Shree Chhotapapeshwar Standards  
SOS Monograph No. 100003  
Balarishta

**Dosage & Anupan :**

2 to 4 tsf (10 to 20 ml) once or twice a day with warm milk or as directed by physician.

## Dashamoolarishta

**Useful In Vatavyadhi**

Effective in:

- Sandhigata Vata
- Sootika Rog
- Amavata
- Dhatukshaya,
- Avabahuk
- Shwas-Kas

**Dosage & Anupan:**

2 to 4 tsf (10 to 20 ml) 2-3 times a day with equal quantity of lukewarm water.

Shree Chhotapapeshwar Standards  
SOS Monograph No. 100005  
Dashamoolarishta

## Jeerakadyarishta

**Excellent Agnideepak Asava**

Effective in:

- Agnimandya
- Grahani
- Adhman
- Aruchi
- Atisar
- Sootika Roga like Katishool

**Dosage & Anupan :**

2 to 4 tsf (10 to 20 ml) twice a day with lukewarm water.

Shree Chhotapapeshwar Standards  
SOS Monograph No. 100055  
Jeerakadyarishta

## Khadirarishta

Useful in all types of Kushtha

Effective in:

- Vicharchika
- Ekakushtha
- Pama
- Krumi
- Granthi
- Pandu

Shree Dhootapapeshwar Standards  
GDS Monograph No. 100035  
Khadirarishta

Dosage & Anupan:  
2 to 4 tsf (10 to 20 ml) 2 to 3 times a day with  
equal quantity of lukewarm water.

## Kutajarishta

Excellent Kalpa in Grahani and Atisar

Effective in:

- Atisar
- Raktataris
- Jeernataris
- Pravahika,
- Sangrahani

Dosage & Anupan :  
2 to 4 tsf (10 to 20 ml) 2-3 times a day with  
equal quantity of lukewarm water

Shree Dhootapapeshwar Standards  
GDS Monograph No. 100036  
Kutajarishta

## Saraswatarishta

Medhya Rasayan for all age groups

Effective in:

- Smrutimandya
- Nidralpata
- Decreased concentration
- Unmada, Apasmara

Lakshan seen in menopausal  
stage such as

- Irritation
- Anxiety
- Mental stress
